## EDUCATION

### University of Wisconsin – Madison

*Bachelor of Science in Computer Science*

Madison, WI

Sept 2021 – Dec 2024

- GPA: 3.21/4.0
- Honors: College of Letters & Science Dean's List

## EXPERIENCE

### Paylocity

July 2026 – Present

*Delivery Ops Implementation Consultant*

*Schaumburg, IL*

- Perform backend configuration and implementation of client Paylocity systems, including building client databases, loading employee data, resolving data-conversion errors, and conducting audits to ensure data accuracy and system integrity.
- Develop **Microsoft Copilot agents** and **Power Automate workflows** to automate repetitive tasks, improve efficiency, and streamline implementation processes.
- Collaborate with Lead Implementation Consultants and team leads to understand client requirements, troubleshoot issues, and ensure accurate implementation of client-specific configurations.

### Jackson Hewitt Tax Service

May 2018 – July 2026

*Technical Support and Administrative Assistant*

*Hoffman Estates, IL*

- Supervise daily office operations and client experience to contribute to a **34% new-client growth**
- Coordinate client scheduling and manage office staffing to ensure efficient operation and quality client services
- Organize and maintain confidential client documents to comply with security requirements
- Install and configure new software by mapping drives to ensure network connectivity
- Troubleshoot and resolve technical issues to maintain seamless operations and communicate solutions with relevant stakeholders

### Deerhold

June 2022 – Aug 2022

*Software Development Intern*

*Nepal (Remote)*

- Built a personal website utilizing **JavaScript** and **React library**
- Programmed a priority based To-Do application to form a dynamic list based on user input, increasing daily efficiencies reported by employees by 15%
- Lead weekly meetings with senior leadership to track progress of firm wide goals and plan work streams to ensure continuous momentum forward

## PROJECTS

### Data Science Pipeline | *NumPy, PyTorch, Pandas, SQL*

Self-Guided Project

- Developing an AI-guided, modular learning project with progressive exercises leading toward a full end-to-end data science pipeline
- Practicing core concepts including **data manipulation, visualization, machine learning, and neural network modeling**

### Calendar-UI | *Figma, Microsoft tools, JS, HTML, CSS*

HCI Design Project

- Designed Calendar-UI, an interactive Calendar prototype that incorporates a Calendar-Notepad design to satisfy user needs
- Demonstrates the design process from gathering and analyzing user data to creating a working prototype

### 3D Soccer Match | *Three.js, HTML, CSS*

Research Project

- Designed a 3D model of a soccer match utilizing **Three.js library**
- Incorporated various 3D modeling techniques i.e. Rendering, shadows, materials, textures

## TECHNICAL SKILLS

**Languages:** Python, Java, JavaScript, SQL, HTML/CSS, C

**Frameworks / Libraries:** React.js, Node.js, NumPy, Pandas, PyTorch, Three.js

**Tools / Platforms:** Git, Docker, Linux, Windows, macOS, Google Cloud Platform (GCP), Jupyter Notebook, Figma, Drive Mapping (Network Shares)
